### **Career Progression and Opportunities**

The Fort Walton Beach Police Department seeks to provide continuous advancement opportunities and career-broadening challenges throughout the officer's career.

1. Officers remain in probationary status during the initial (12) twelve months of service.
2. Recruit officers are required to complete a minimum of fourteen weeks in field training under the supervision of a Field Training Officer (FTO). The recruit spends the first two weeks of this period observing the FTO and becoming familiar with the geography of Fort Walton Beach. During the next ten weeks, the recruit gradually assumes the role of primary officer within an assigned patrol zone, though he will always be accompanied by the FTO. During the final two weeks, the recruit is expected to work without the assistance and supervision of the FTO. The recruit receives written daily feedback during the field-training program. Most recruits successfully complete field training, but it is not unusual for the fourteen-

week field-training period to be extended. An expedited field training process does exist for prior/active law enforcement.

3. Career broadening opportunities available to our officers later include, but are not limited to Field Training Officer, Detective, Community Oriented Police Officer, K9 Officer, and Tactical Response Unit Member.
4. Advancement is competitive in nature and is based upon performance evaluations, written examinations, and oral boards.
5. Officers continue to have opportunities to attend specialized law enforcement classes throughout their careers at no personal expense.
